# Artur Kheavavasam
Frontend Developer

## 🎓 Education

**(2023 – 2025)**
**LUKSIA – VOCATIONAL COLLEGE**
Vocational Qualification in Information and Communication Technology (Software Developer)

**(2025 – present)**
**METROPOLIA UNIVERSITY OF APPLIED SCIENCES (AMK)**
Bachelor of Engineering in Information and Communication Technology

## 💼 Experience

**Reflect — Junior Full-Stack Developer**
**09.2024–03.2025**

Built a web app that analyzes incoming emails and decides what to keep or delete. Added Google OAuth2 (Allauth).
Created server-rendered pages in Django (responsive, i18n, ARIA).
Added small React widgets (confirm modal, tabs) and embedded them via Vite/esbuild.
Built an article page and a landing page in Wagtail with SEO.
Deployed with Docker and set up env, migrations, basic logs.

**Hyvä kielipää — Frontend / Full-Stack Developer (project-based)**
**07.2025–10.2025**

Built a marketing site with a catalog of product cards.
Implemented forms, localization, basic SEO and analytics.
Set up hosting and domain, migrated content, optimized images and caching.
Stack: PHP + MySQL, server-side rendering.

**Restaurant — Full-Stack Developer**
**03.2025–06.2025**

Built a restaurant app with an admin panel: menu and item cards, cart, reservations, roles, CRUD.
Server templates in PHP, form validation, pagination, responsive layout.
Added user cancel flow, admin removal, and auto cleanup for expired reservations.

**Personal project — Bilingual Children's Stories (Founder, React/Next.js)**
**09.2025–present**

Building a web app for personalized bilingual stories.
In development: Next.js prototype with SSR, basic i18n (FI/EN), simple story draft form.
Preview on Vercel. Grant application submitted.

## 👤 About Me

Full-stack-minded developer focused on front end. Worked with SSR, APIs and deployment; now deepening React/Next.js.
